

What Is the cost of Cybersecurity?

IT CONSULTING
St. Petersburg LLC

Security Engineer: \$120K
CISO: \$200k +
Cyber Analyst: \$102k
National Average cost per
employees per month:
\$195-\$300

Cybersecurity is not a one-time expense, but an ongoing process that requires constant monitoring and improvement. By spending wisely on cybersecurity, a small business can protect its valuable assets and avoid costly consequences.

Typically, businesses spend .6-1% of current revenue on cybersecurity or 10-20% of their IT Budget.

ITC Secure package includes: 24/7 Patching, Remediation and Security Monitoring. Includes ITAM (IT Asset Management), Security Operations Center, Network Operations Center, End Point Detection and Response, Zero Trust Application Control, Network Detection and Response and 24/7 Incident Response Team (\$65 per workstation/laptop)

By taking proactive measures today, you can safeguard your business's future. We're excited to help you bolster your cyber security strategy. Customized pricing with add-ons. Allow for a Certified Virtual Chief Information Security Officer help your organization today.
